Blessing Adaeze Muoghalu

Johannesburg, Gauteng | +27 63 170 0835 | blessmuoghalu@gmail.com |

PERSONAL SUMMARY

Detail-orientated and thoughtful mathematics and computer science graduate seeking an opportunity to gain practical experience in the field. Eager to apply my academic knowledge and analytical skills to contribute to a growing organisation and further develop my professional skills.

WORK EXPERIENCE

Willing to gain more work experience

EDUCATION

University of Johannesburg (UJ)

Bachelor of Science (BSc) in Mathematics and Computer Science *2020- 2025*

The coursework encompassed advanced mathematical subjects such as calculus, statistics, linear algebra, and discrete mathematics, alongside foundational computer science disciplines like data structures and algorithms, computer networking, and operating systems.

SKILLS

- **Programming Proficiency**: Intermediate proficiency in multiple programming languages (e.g**. Java, C++**, and **R**)
- **Discrete Mathematics**: Proficiency in discrete mathematical concepts like logic, set theory, graph theory, and combinatorics.
- **Calculus & Linear Algebra**: Strong foundation in calculus (differential and integral) and linear algebra, essential for many areas of computer science.

  Statistics | Critical Thinking | Lifelong Learning | Problem solving | Adaptability | Artificial intelligence | Data Development | Flexibility | Multitasking
